

Stem Enhance ↻ (People)      Stem Equine ↻ (Horses)      Stem Pet (Dogs & Cats)

## ADULT STEM CELLS BRIEFLY

*Ovum (Egg) and Sperm (Sperm) = Fertilized.*

*This equals 1 cell. This cell divides and you get 2 cells. These divide and you get 4 cells, these divide and you get 8 cells. This is a Blastocoele. At this point, each of the 8 cells is an Embryonic Stem Cell. They are called Embryonic till the fetus is born, then all stem cells in the umbilical cord and in the bone marrow are called, Adult Stem Cells.*

- They are in our own bone marrow and circulate in the blood and can make themselves into any tissue in the body!!!!!!!!!!!!!!
- **THESE ADULT STEM CELLS ARE THE CARRIERS OF HEALTH TO DAMAGED TISSUE AND ORGANS.**

**THEY ARE THE REPAIR TEAM!!!!!!**
